

GENERAL EDUCATION

Associate in Arts

This program offers two years of college-level work for the student seeking broad educational improvement and who is planning to transfer to a four-year institution. The program of study must be carefully structured, however, to give the student a meaningful experience. The requirements for this Associate in Arts degree are as follows:

- a. No more than 18 hours beyond college core curriculum selected from one of the college departments (excluding technical concentrations such as engineering and nursing):
 - Humanities
 - Social Science (excluding Criminal Justice, Fire Science, and EXPE courses)
 - Mathematics
 - Science
 - Health and Physical Education
- b. Sufficient additional hours to meet general requirements for the degree outlined in the section on degrees. Students may select a maximum of 6 semester hours of business courses in satisfying the free elective requirements of this degree.
