Types of Doctor's Degrees:

(From the IPEDS Glossary) (Rev. 3/8/11)

Doctor's Degree - Research/Scholarship

A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a

dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.

Doctor's Degree - Professional Practice

A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional" and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution. Other examples may include Au.D., D.Ed.Min., D.N.P., D.Min., D.Ed.Min, D.Miss., D.P.T., N.D., O.T.D., and Psy.D.

Doctor's Degree - Other

A doctor's degree that does not meet the definition of a "doctor's degree - research/scholarship" or "doctor's degree - professional practice."

RELATED ENTITIES

Is the institution completing this form related to another entity, within this region or elsewhere, that is not accredited by Middle States?

Excerpt from the "Related Entities" policy statement:

A related entity may be a corporate parent, system administration or board, religious sponsor, funding sponsor (which, in some cases, may include an equity or investment fund), or other entity that can affect decisions related to accreditation (herein "Related Entities"). Related entities may include institutional or corporate layers or groups. Ordinarily, local, county, and state legislatures, other accreditors, local advisory boards, and government agencies are not related entities. The scope of this policy does not include "contractual relationships" in which the accredited entity contracts for services; these are governed by a separate Commission policy.

Exclusions:

Do not report relationships that you are listing elsewhere in the IP as Branch Campuses, Additional Locations, or Other Instructional Sites.

Instructions

AWARDS GRANTED

Report all degrees or other formal awards conferred by your institution between July 1, 2009, and June 30, 2010 (or other official year, if your institution uses an enhanced semester calendar). If an individual received two degrees at different levels during the specified time period, report each degree in the appropriate category.

Include earned degrees and awards conferred by branches of your institution located within or outside the Middle States region, including foreign countries.

Exclude honorary degrees and awards.

Institutions that indicate "Yes" their undergraduate programs serve only transfer students will not be provided with a Completers section.

COMPLETERS

Provide the total number of students in the relevant cohort who received their awards no later than 2009-10 (which would be within 150 percent and 200 percent of the time expected for them to receive the degree/certificate for which they matriculated). Also provide the total number of students who transferred out of your institution before completing their programs.

Note: Institutions that offer transfer programs and have no baccalaureate-level first-year students should check the appropriate box in the screening questions that appear at the beginning of the IP. Institutions that started first-year baccalaureate programs in 2005-06 or later should answer "no." These institutions then do not need to report in the Completers section in order to lock down and submit the IP.

Cohorts:

For 2-year institutions, to compute 150% of time to degree, select full-time, first-time degree/certificate-seeking students who entered in Fall 2007 (i.e., first enrolled in academic year 2007-08, who remained enrolled in or who graduated at the end of 2008-09, and those who may have continued through 2009-10). The cohort year for 200% begins in Fall 2006, showing their status through August 31, 2010 (Rev. 2/15/11).

If your institution is an Associate's college and began offering such programs in or prior to 2007-08, include in the cohort the students for these programs who enrolled in Fall 2007 and received full credit through 2009-10.

If the mission of particular programs is to prepare students for transfer to other institutions, count as completers those students who have successfully completed a transfer-preparatory program that is acceptable for full credit toward a bachelor's degree and qualifies a student for admission into the third year of a bachelor's degree program. (Note: "Full credit" means the number of credits the institution awards for completing a program, not just some of those credits, and therefore the student is eligible to graduate under the institution's regulations.)

For Associates institutions with Baccalaureate programs (i.e., primarily Associate's with some 4-year programs), report as if for a 2-year institution. Exclude students who initially enrolled in and continue exclusively in Baccalaureate programs.

For Specialized institutions where the majority of the students are either 2-year students who continue in baccalaureate programs or students who are exclusively in baccalaureate programs, report as if for a 4-year institution, and exclude students who complete in two years. If all of the students complete their programs in two years, report as a 2-year institution.

For 4-year institutions, the cohort year to compute 150% includes full-time, first-time degree/certificate-seeking students who entered in Fall 2004 (i.e., enrolled in academic years 2004-05, 2005-06, 2006-07, and 2007-08, who graduated in 2008 or at any time through 2008-09 or 2009-10). The cohort year for 200% begins in Fall 2002, showing their status through August 31, 2010 (Rev. 2/15/11).

Do not include students who entered in Associate's programs or students who transferred into your institution. Institutions that have only transfer programs should check the applicable box in the screening questions at the beginning of the IP.

Four-year institutions that offer 5-year or longer programs should include in the 2004 cohort the students for these programs who received full credit through 2009-10 (i.e., include all the students who entered the 5-year program in Fall 2004 and reflect their status as of the end of the 2009-10 academic year).

Institutions with a continuous-term calendar for the majority of their programs should use the full-year cohort.

(All Institutions) Include: Students enrolled in courses that are part of a vocational or occupational program, including those enrolled in off-campus centers and those enrolled in distance learning/home study programs; full-time students taking remedial courses if the student is considered degree-seeking; full-time students who subsequently become part-time, transfer to another institution, drop out, stop out, or have not fulfilled the requirements for a degree or certificate. (Note: A student who is designated as part of a cohort remains in that cohort even if he or she becomes a part-time student.)

(All Institutions) Exclude: Students who are enrolled exclusively in non-credit courses or are not seeking a degree/certificate, exclusively auditing classes, studying abroad at a foreign university if their enrollment at the reporting institution is only an administrative record and the fee is only nominal, or studying in a branch campus located in a foreign country.

Other exclusions are the same as for IPEDS:

- * Students who died or became permanently disabled
- * Students who left school to served in the armed forces (or have been called up to active duty)
- * Students who left school to serve with a foreign aid service of the Federal Government
- * Students who left school to serve on an official church mission

Transfers Out. If you collect transfer information, report the number of students whom you know to have transferred to another institution, without a degree/award from your institution, within 150% of normal time to completion. If you do not know that they have actually transferred, report them as drop outs and explain in the notes that they are drop outs. Track all of your cohort for 3 years (2-year institutions) or for 6 years (4-year institutions), as applicable.

DEFINITIONS OF TYPES OF AWARDS

(Adapted from the IPEDS Glossary)

Associate's: An award that normally requires at least 2 but less than 4 years of full-time equivalent college work

Bachelor's: An award that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. It also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years

Master's: An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree

Doctor's - research/scholarship: A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M., and others, as designated by the awarding institution.

Doctor's - professional practice: A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "First Professional" and may include Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (L.L.B. or J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O.); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.

Doctor's - other: A doctor's degree that does not meet the definition of a "doctor's degree - research/scholarship" or a "doctor's degree - professional practice."

Diploma/Certificate: A diploma refers to a formal document certifying the successful completion of a prescribed program of studies. A certificate is a formal award certifying the satisfactory completion of a postsecondary education program. Do not provide information here about recreational, avocational (leisure), adult basic, remedial, high school equivalency, or other similar certificates that your institution also offers.

TOTAL ENROLLMENT

Total credit hours of all part-time students. Compute the total as of Fall 2010, using the institution's official fall reporting date (or as of October 15, 2010, whichever is sooner). Report separately for both undergraduate and graduate students. If your off-campus sites have different census reporting dates from the main campus cutoff date, please report the total number of credit hours, regardless of the census date. [If your institution does not compute this information until the end of the semester, put zero in this field, explain in the Notes, and submit this information when it is available by e-mail to tjoe@msche.org.]

Minimum credit load for a student to be considered full-time (per semester or equivalent unit). The general rule is that a full-time student is one who is enrolled for 12 or more semester credits, 12 or more quarter credits, or 24 or more contact hours a week each term. A full-time graduate student is enrolled for 9 or more semester credits, 9 or more quarter credits, or who is involved in thesis or dissertation preparation that the institution considers full-time.

If your definition of a full-time load varies by program or course of study, use the load representing the majority of your students. Explain the difference **briefly** in the Notes; if Commission staff or evaluators need further details, you can provide a full explanation at that time.

Full-time Headcount. Provide an unduplicated headcount of all full-time and part-time students, reporting undergraduate and graduate levels separately. The Commission will print the Total FT and PT headcount in its directory and will rely on it when selecting visiting teams of evaluators and for other purposes.

Institutions operating under a calendar that differs by program or enrolling on a continuous basis should include students who were enrolled in your institution at any time between August 1 and October 31 of 2010.

Significant Enrollment Growth: The U.S. Department of Education requires MSCHE to monitor the growth of programs at any institution where total enrollment increases by 50 percent or more in any year (Rev. 4/13/11).

Include:

- Students enrolled in courses for credit at the main campus, at all branch campuses (except those that are separately accredited), and at all off-campus sites as defined in these Instructions (i.e., domestic or overseas branch campuses, additional locations, other instructional sites, and students in the institution's study-abroad program who are enrolled for credit at the reporting institution)
- Students enrolled in courses for credit who are not recognized by the institution as seeking a degree (i.e., students receiving certificates or diplomas for academic, occupational, or post-baccalaureate continuing professional studies.)

Note: IPEDS defines an "Occupational program" as "A program of study consisting of one or more courses, designed to provide the student with sufficient knowledge and skills to perform in a specific occupation." It is usually below the baccalaureate level. Examples include bookkeeping, office management, massage therapy, etc.

Exclude:

- Students exclusively auditing classes
- Students who receive the reporting institution's distance education programs but who receive credit from another institution through consortia or other agreements
- Students exclusively enrolled in courses that cannot be credited toward a degree or other formal award (i.e., recreational, avocational [leisure], high school equivalency, or other similar certificates).

Students at a reporting institution located abroad, who are study-abroad students from another U.S. institution, when those students will not receive their degrees from the reporting institution.

Summer Programs. Students attending the Summer 2010 session to complete requirements for graduation in 2009-10 are considered to be part of that prior year. However, students starting early, who take Summer 2010 courses and continue into Fall 2010, are to be counted in the 2010-11 cohort. Alternatively, use your institution's normal procedures for computing an academic year (e.g., Summer 2, Fall, Spring, and Summer 1), if applicable.

CREDIT ENROLLMENT (Unduplicated)

MATRICULATED STUDENTS

Report the unduplicated headcount of all students as of Fall 2010 who are recognized by the institution as being enrolled in and working toward a specific degree or certificate (i.e., matriculated). Report also an unduplicated number of students who are not matriculated but who are enrolled in courses for which credit is awarded.

Exclude: (Rev. 2/15/11)

- Students exclusively auditing classes
- Students who receive the reporting institution's distance education programs but who receive credit from another institution through consortia or other agreements
- Students exclusively enrolled in courses that cannot be credited toward a degree or other formal award (i.e., recreational, avocational [leisure], high school equivalency, or other similar certificates).
- Students at a reporting institution located abroad, who are study-abroad students from another U.S. institution, when those students will not receive their degrees from the reporting institution.
- Students who are matriculated but who are on leave and not actively pursuing a degree/diploma (i.e., not utilizing the institution's faculty, staff, or facilities).

NON-CREDIT ENROLLMENT

The purpose of reviewing non-credit enrollment is to consider the likely impact of this enrollment on the institution's faculty, facilities, revenue, and other overall operations and integrity.

Report the number of students enrolled in non-credit courses (i.e., courses that cannot be counted toward a degree). The reporting period is the entire **previous** academic year (2009-10), (e.g., Summer, Fall, and Spring; or Summer 2, Fall, Spring, and Summer 1. Alternatively, use your institution's normal procedures for computing an academic year.) (Rev. 2/23/11).

Count students without regard to whether they also enrolled in for-credit courses, and count them once if they enroll in more than one non-credit course. If a non-credit student takes a vocational course and an avocational course, count that student once under vocational.

Note: The column marked "IP Data (2010-11)" refers to **the year in which your institution is submitting the IP**. This is the column where you should enter "the entire previous academic year" (i.e., 2009-10) referred to above.

Report headcounts separately for: (1) graduate level courses; (2) undergraduate level and other continuing education courses for which certificates of completion may or may not be provided (including ESL, remedial, or career-related skills and knowledge for vocations); and (3) avocational (self-improvement/leisure) courses.

If your institution has no system for separating enrollment in continuing education versus avocational courses, report all such enrollment as continuing education, and explain in the Notes section.

Include any pre-college students, because they also have an impact on the institution's physical, fiscal, and human resources.

Exclude:

- Students exclusively auditing classes
- Students enrolled and seeking a formal award who also choose to take a course without credit, who complete all assignments, and who do so for personal enrichment
- Students who receive the reporting institution's distance learning programs but who receive credit from another institution through consortia or other agreements
- Students who are completing requirements for a class taken in a prior semester, who pay a basic registration fee for tracking purposes but who are not independently taking a scheduled non-credit course
- Matriculated students who are required to take a particular non-credit course in order to graduate but who are not independently taking that scheduled non-credit course.

E. Distance and Correspondence Education

Distance education means education that uses one or more technologies to deliver instructions to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor. See the Instructions for a full explanation.

The registrations may be duplicated if a student enrolls in more than one course.

Explain in the Notes if prior year's total is expected to be 50% greater in 2010-11.

Notes

Instructions

Part 1. Distance Education

Distance education means education that uses one or more of the technologies listed below to deliver instruction to students who are separated from the instructor and to support **regular and substantive interaction** between the students and the instructor, either synchronously or asynchronously. The technologies may include: (1) The Internet; (2) One-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; (3) Audioconferencing; or (4) Video cassettes, DVDs, and CD-ROMs, if the cassettes, DVDs, or CD-ROMs are used in a course in conjunction with any of the technologies listed above.

"Hybrid" or "mixed delivery" courses. The *predominant mode of delivery* is the deciding factor whether a hybrid/blended program or course is considered to be distance or correspondence education versus on-site/residential education.

Indicate whether your institution, in the most recent **prior year** (2009-10), offered courses for credit using distance education. If a

course was offered but no students enrolled, select "No."

Courses

If you selected 'yes' in the previous question, then provide, in the appropriate field:

(a) the **unduplicated headcount** of all students in the most recent prior year (2009-10) who took distance education courses for credit by your institution (e.g., Summer, Fall, and Spring; or Summer 2, Fall, Spring, and Summer 1. Alternatively, use your institution's normal procedures for computing an academic year.) (Rev. 2/23/11) and

(b) the **total number of registrations** in the most recent prior year (2009-10) who took distance education courses for credit by your institution. ("Registrations" refers to the sum of "seats" filled. Therefore, registrations may be duplicated if a student enrolls in more than one course.)

Explain in the Notes if the prior year's total is expected to be greater in 2010-11.

Exclude: Students who drop out before and after the end of the drop/add period.

Programs

Report the number of degree or certificate programs offered during the **prior year (2009-10)** for which students could meet 50% or more of their requirements for any of the programs by taking distance education or correspondence courses.

Definition: Program means a postsecondary educational program offered by an institution of higher education that leads to an academic or professional degree, certificate, or other recognized educational credential.

Summer Programs. Students attending summer sessions to complete requirements for graduation are considered to be part of the previous year. Students starting early, who take summer courses and continue in the Fall are to be counted in the current cohort being reported.

Part 2. Correspondence Education

Correspondence education means: (1) Education provided through one or more courses by an institution under which the institution provides instructional materials, by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor; (2) Interaction between the instructor and the student is limited, is not regular and substantive, and is primarily initiated by the student; (3) Correspondence courses are typically self-paced; and (4) Correspondence education is not distance education.

Indicate whether your institution, in the most recent **prior year (2009-10)**, offered courses for credit using correspondence courses. If a course was offered but no students enrolled, select "No."

Courses

If you selected 'yes' in the previous question, then provide, in the appropriate field:

(a) the **unduplicated headcount** of all students in the most recent prior year (2009-10) who took correspondence courses for credit by your institution (e.g., Summer, Fall, and Spring; or Summer 2, Fall, Spring, and Summer 1. Alternatively, use your institution's normal procedures for computing an academic year.) (Rev. 2/23/11) and

(b) the **total number of registrations** in the most recent prior year (2009-10) who took correspondence courses for credit by your institution. ("Registrations" refers to the sum of "seats" filled. Therefore, registrations may be duplicated if a student enrolls in more than one course.)

Explain in the Notes if the prior year's total is expected to be greater in 2010-11.

Exclude: Students who drop out before and after the end of the drop/add period.

Programs

Report the number of degree or certificate programs offered during the **prior year (2009-10)** for which students could meet 50% or more of their requirements for any of the programs by taking distance education or correspondence courses.

Definition: Program means a postsecondary educational program offered by an institution of higher education that leads to an academic or professional degree, certificate, or other recognized educational credential.

Summer Programs. Students attending summer sessions to complete requirements for graduation are considered to be part of the previous year. Students starting early, who take summer courses and continue in the Fall are to be counted in the current cohort being reported.

Instructions

The regional, national, and/or specialized accrediting organizations your institution reported last year are shown in the left column.

In the column on the right, check the box next to the name of the accreditors that currently accredit your institution or its programs. The applicable boxes must be checked each year. The items you selected last year will not carry over automatically to the Current IP Data column.

Note: This list contains those accrediting agencies that are recognized by the U.S. Secretary of Education. To view the complete federal list, go to: http://www2.ed.gov/admins/finaid/accred/accreditation_pg6.html#NationallyRecognized

If other accrediting organizations are applicable for your institution, please insert them in the Notes section.

If your institution offers programs in collaboration with another institution, and the other institution is accredited for that program but you are not, do not list the other institution's accreditor.

	Full-Time Headcount	Part-Time Headcount	Full-Time Headcount	Part-Time Headcount
Total Faculty	113	412	106	430

Notes

Instructions

Report an unduplicated headcount of full-time and part-time instructional personnel.

Definitions:

Full-time vs. Part-time. Full-time personnel are either available for full-time assignment during the period being reviewed or are designated as "full time" in an official contract or appointment. Normally, employees who work approximately 40 hours per week for a full academic year are considered full-time. Individuals on sabbatical should be counted as full-time if their status was full-time prior to their leave. Faculty who teach only one semester or term are part-time, because the basis of measurement is a full academic year.

Adjunct professors. Count adjunct professors and visiting professors as part-time, unless you have a specific category for full-time adjunct or visiting professors. Adjunct faculty are defined by IPEDS as non-tenure-track positions where one has a temporary or auxiliary capacity to teach specific courses on a course-by-course basis. An adjunct who serves only one semester should be counted as a whole (not one-half) part-time assignment.

Medical School Faculty. Include those faculty members who may be exclusively involved in clinical and pre-clinical instruction at the primary reporting location and at satellite or other locations where students rotate. Indicate in the Notes section the number of faculty with this role. Again, the purpose is to consider the likely instructional impact on the enrolled students.

Instructors. Include those personnel who may have the title of instructor but who are not student assistants, adjunct professors, and lecturers.

Compensated vs. Uncompensated. For the purpose of this survey, it is of no consequence whether instructional personnel are financially compensated or not. The purpose is to consider the likely instructional impact on the enrolled students.

Exclude:

- Professional staff, such as librarians, administrators, researchers, and others if they do not have faculty status at your institution, or if they have faculty status but do not teach as their primary activity (*Note: Instructional librarians with faculty status who teach credit-bearing courses would be included.*)
- Faculty who teach only non-credit courses
- Students (typically graduate students) having such titles as teaching assistant, teaching fellow, or research assistant.

H. Related Educational Activities

H-1. Study Abroad

This section is only required if your institution's Self-Study Visit is scheduled for 2011-12 or 2012-13.

Note:

Your institution's next Self-Study Visit is scheduled for 2013-14.

Instructions

This section is required **ONLY** if your self-study visit is scheduled for 2011-12 or 2012-13.

Note:

Your next Self-Study Visit is scheduled for (THE ON- LINE PROGRAM WILL INSERT THE DATE FOR YOUR INSTITUTION.)

For each country, enter the total number of sites at which your institution offers study abroad programs, and enter the total number of students (undergraduate + graduate) who who enrolled for Summer 2010, Fall 2010, and Spring 2011.

Include only those students who are enrolled in study abroad programs **for which academic credit will be awarded by your institution.**

Do not count students from other institutions enrolled at your site if your institution does not award the credit, regardless of whether or not your institution provides the faculty and other services. These types of situations are more appropriately discussed in your institution's next self-study report.

If a country has no students enrolled, or if none are expected to enroll in the program(s) during 2010-11, delete it, even though there were students in a prior year and the institution still has contractual obligations with an affiliated provider or maintains its own physical plant in that location. Do not report sites that are permanently closed.

Definitions:

The programs may be sponsored or co-sponsored by your institution. Report only sites where your institution has "ownership" over the curriculum (i.e., determines what will or will not be taught) and where your institution specifically approves which faculty members will or will not teach.

Contracts for programs where the reporting institution has an arm's length contractual relationship with the study abroad site operators (i.e., without veto power over curriculum components and individual faculty) will be treated as if they are equivalent to articulation agreements for the purposes of the IP. They should be reported as such, when appropriate, in your institution's self-study report.

Exclude :

- individualized or group programs for students who may visit one or more sites in a given season (i.e., not resident at the site for an entire semester or equivalent period)
- exchange programs

Note: A Study Abroad site, for purposes of this report, is for U.S. students traveling to that country, as specified in the Instructions for Study Abroad. An Other Instructional Site located abroad is primarily for the benefit of local students (regardless of nationality, including U.S. nationals) living in that country.

H-2. Branch Campuses (as of Fall 2010)

Data on File (as of 4/21/2011)	IP Data (2010-11)
No Branch Campuses.	No Branch Campuses.

Instructions

Please verify pre-printed information as of 2010-11.

Note: Provide a **complete** address for **each** branch, including street address. Your institution's Title IV funding could be in jeopardy if the address provided to MSCHE is not identical to the one provided to IPEDS.

Programs. Verify the number of degree programs or specialties that may be completed entirely at this branch. Include all certificate/diploma programs but exclude avocational/leisure courses. (IPEDS defines a program as "A combination of courses and related activities organized for the attainment of broad educational objectives as described by the institution.") In addition, more than one program can result in the award of a degree, and this question does not refer to the number of degrees the institution actually awarded at each branch.

For each Branch Campus, click "Modify" and indicate the number of programs your institution offers for each of the following certificates and degrees:

- Postsecondary award, certificate, or diploma 1 (less than one academic year)
- Postsecondary award, certificate, or diploma 2 (at least one but less than two academic years)
- Associate's Degree
- Postsecondary award, certificate, or diploma 3 (at least two but less than four academic years)
- Bachelor's Degree
- Postbaccalaureate certificate
- Master's Degree (Including M.Div.)
- Post-master's certificate
- Doctor's degree - research/scholarship
- Doctor's degree - professional practice
- Doctor's degree - Other

Headcount. Provide the full-time and part-time headcount at each branch and for a full academic year (e.g., Summer, Fall, and Spring; or Summer 2, Fall, Spring, and Summer 1. Alternatively, use your institution's normal procedures for computing an academic year.)

(Rev. 2/15/11)

Report graduate and undergraduate students separately. The headcounts at various branches may be duplicated if students attend multiple locations. The objective here is to identify the totals served at each branch. If duplicated, indicate that in the Notes section.

Inactive Branches. If an institution has no students at a branch during the reporting period for this Institutional Profile, but the institution maintains contractual obligations to maintain the branch, mark the Status as inactive, and the headcount for the current year will be displayed as zero. The purpose of designating a branch as inactive is to avoid the necessity of deleting a branch that has been approved within the scope of your accreditation and then reinstating it on this report in a subsequent year when there are students.

Add or Close a Branch Branches may not be added or closed except through the Substantive Change process six months in advance of the addition or closing. See the relevant [policy statement](#) with instructions for submitting a Substantive Change request and the separate [Frequently Asked Questions](#).

For the 2010-11 IP, by indicating that a branch is permanently closed under "Modify," the Middle States database will NOT reflect that it is actually closed, and it will continue to appear as such until you have successfully completed the Substantive Change process.

Definitions:

The Commission defines a branch campus as a facility that is geographically apart from and independent of the main campus of the institution. The facility is independent if it:

- offers courses in educational programs leading to a degree, certificate, or other recognized educational credential
- has its own faculty and administrative or supervisory organization; AND
- has its own budgetary and hiring authority

The Commission's definition of a branch campus may or may not be the definition the institution uses for state reporting purposes.

Branch campuses are not considered to be temporary, but they may be rented or made available to the institution at no cost by another institution, organization, agency, or firm. The branch may be organized and managed by the institution itself or by contractual agreement with a third party.

Note:

A facility listed as a "branch campus" may not also be listed as an "additional location" or an "other instructional site."

(IPEDS defines a program as "A combination of courses and related activities organized for the attainment of broad educational objectives as described by the institution.") In addition, more than one program can result in the award of a degree, and this question does not refer to the number of degrees that students actually earned through each Additional Location.

Report graduate and undergraduate students separately. Include only students who are full-time or part-time in degree programs at the location being reported, not whether they are full-time or part-time at the institution as a whole (if there is in fact any difference).

If students attend multiple locations, the headcounts at various additional locations may be duplicated (i.e., across locations but not within a location). The objective here is to identify the totals served at each location. If duplicated across locations, indicate that in the Notes section.

Inactive Additional Locations. If an institution has no students at an additional location during the reporting period for this Institutional Profile, but the institution maintains contractual obligations to maintain the location, mark the Status as inactive, and the headcount for the current year will be displayed as zero. The purpose of designating a branch as inactive is to avoid the necessity of deleting a location that has been approved within the scope of your accreditation and then reinstating it on this report in a subsequent year when there are students.

For the 2010-1 IP, by indicating that an Additional Location is permanently closed under "Modify," the Middle States database will NOT reflect that it is actually closed, and the location will continue to appear as such until you have successfully completed the Substantive Change process.

Partial-year Reporting. If an approved location opens or begins enrolling students in the middle of an academic year, treat the location as Active and report the partial-year enrollment. In the Notes section, give the date activity began.

Definitions:

The Commission defines an Additional Location as a facility, other than a Branch Campus or an Other Instructional Site that:

- **is geographically apart from the main campus; AND**
- **at which students may complete at least 50 percent of an educational program** (i.e., of at least one program).

If a location does not meet the 50 percent rule, it should be treated as an "Other Instructional Site." However, if it is currently approved as an "Additional Location," Substantive Change rules apply in order to deactivate it.

Additional Locations are not considered to be temporary but may be rented or made available to the institution at no cost by another institution, organization, agency, or firm. The location may be organized and managed by the institution itself or by contractual agreement with a third party. Programs may be accredited by another recognized accreditor. The criterion for reporting is whether the degree or certificate is awarded in the name of your institution.

Note:

A facility listed as an "additional location" may not also be listed as a "branch campus" or an "other instructional site."

Instructions

Please verify the pre-printed information for 2010-11, and modify the information as necessary.

Other Instructional Sites may be added, or they may be deleted if there are no plans to use the site in the near future. *[Note: The IP is a "snapshot" as of the fall. Therefore, if a listed site is active but is used only in the summer, report the headcount as zero.]*

Report all Other Instructional Sites, and enter the city, state, and country in which each site is located. Report only sites at which **entire courses**, not partial courses, are offered.

Indicate the name of the site or facility at which courses are being offered.

Enter the **unduplicated** total number of students taking courses for credit as of Fall 2010, whether or not those students are matriculated in a specific degree or certificate program. If students attend multiple sites, the headcounts at various sites may be duplicated (i.e., across sites but not within a site). The objective here is to identify the totals served at each site and the likely impact on an institution's resources.

If a site is used primarily in the Spring, report the headcount for the Spring and explain that item in the Notes section.

Definitions:

The Commission defines an Other Instructional Site as any off-campus site, other than a Branch Campus or an Additional Location, at which the institution offers one or more courses for credit.

These sites may include, but are not limited to, high schools, corporations, community centers, and churches.

Exclude:

- Distance education programs;
- Any site used only in the Summer;
- Sites used only for internships or practica (However, if entire courses are available there for other disciplines, those sites should be counted.)

Note:

A facility listed as an "other instructional site" may not also be listed as a "branch campus" or an "additional location."

An Other Instructional Site located abroad is primarily for the benefit of local students (regardless of nationality, including U.S. nationals) living in that country. A Study Abroad site, for purposes of this report, is for U.S. students traveling to that country, as specified in the Instructions for Study Abroad.

Financial Information (Part 1)

FINANCIAL PAGE INSTRUCTIONS

Report the same Educational and General (E&G) expenses that you reported to Integrated Postsecondary Higher Education Data Systems (IPEDS) for similar fields. Where appropriate, the related part and line numbers from IPEDS are listed for easy reference.

Verify the beginning and ending date for your institution's fiscal year. The default dates are 07/01/2009 through 06/30/2010 (the most recent year for which you would have audited financial statements). If your institution uses different dates, please change the default dates accordingly. Also, if your institution has a December 31st year end, you should be submitting financial data as of 12/31/10. If you do not have your final audited financial statements, please contact us before completing this section.

The user is prompted to answer the following three questions immediately after logging in to the application for the first time. The answer to each of the questions can be revised on the financial page.

- Which reporting standard is used to prepare your institution's financial statements?" (e.g., FASB - Financial Accounting Standards Board; or GASB - Governmental Accounting Standards Board.)
- "Does your institution allocate Operation and Maintenance of Plant expense?" (The default response is the value your institution previously reported.)
- "Does your institution allocate Depreciation expense?" (The default response is "No".)

Report financial data in whole dollars. Round cents to the nearest whole dollar. For example, enter \$124, not \$123.65.

Do not enter data in thousands of dollars. For example, enter \$1,250,000, not \$1,250. (NOTE: Do not enter dollar signs, commas, decimal points or trailing zeros; they are used here in these instructions for clarity.)

Foreign Currency Conversion. An institution that prepares its audited financial statements in a currency other than U.S. dollars may convert the value of their currency to U.S. dollars as of the date of the fiscal year end.

Report Educational and General expenses by expense category. (e.g., instruction, research, public service, etc.) The total expense for each category is the sum of restricted and unrestricted expenses.

The sum of your institution's total reportable E&G expense appears on the last line of the form. Last year's reported E&G expense is displayed for comparison.

Scholarship and Fellowship Expense:

Do not report as Scholarship and Fellowship Expense any tuition discounts, scholarship allowances, etc., reported in the income statement under revenue of your institution's audited financial statements. You may report the IPEDS calculated value (i.e., net scholarship and fellowship expense after deducting discounts and allowances).

Operations and Maintenance (O&M):

- Institutions that allocate Operations and Maintenance (O&M) expense across the expense categories: For each expense category, enter the total expense, including the pro-rated O&M expense in the column labeled "Expenses", and enter the pro-rated O&M expense in the column labeled "Includes O&M". The program will automatically total the O&M expenses and put the total at the bottom of the column labeled "Includes O&M". (This field is not accessible to the user.)
- Institutions that do not allocate Operations and Maintenance (O&M) expense across the expense categories: Enter the total O&M expense in the appropriate field in the column labeled "Expenses".

Depreciation:

- If Depreciation expense is allocated across the expense categories: No additional data entry is required.
- **If Depreciation expense is not allocated across the expense categories:** Enter Depreciation expense on Line 9.

Net Assets and Change in Net Assets:

Enter the Change in Net Assets, Adjustment to Net Assets (Beginning of Year) and Net Assets (End of Year). Note: Net Assets (Beginning of Year) is carried forward from the prior fiscal year's ending net assets and cannot be changed. Also, a new line labeled Adjustments to Net Assets (Beginning of Year) has been added. If the Net Assets (End of Year) does not equal the Net Assets (Beginning of Year), plus(minus) any Adjustment to Net Assets (Beginning of Year), plus(minus) Change in Net Assets, you will be prompted to revise the data in one or more of these fields.

Shareholder Equity and Change in Shareholder Equity:

Enter the Shareholder Equity (End of Year) and the Change in Shareholder Equity. Note: Shareholder Equity (Beginning of Year) is carried forward from the prior fiscal year's ending shareholder equity and cannot be changed. Also, a new line labeled Adjustments to Shareholder Equity (Beginning of Year) has been added. If the Change in Shareholder Equity does not equal the difference between the Shareholder Equity (Beginning of Year) and the Shareholders Equity (End of Year), you will be prompted to revise the data in one or more of these fields.

Financial Information (Part 2)

FINANCIAL PAGE INSTRUCTIONS

This section is new for the 2010-11 Institutional Profile. Please report the additional financial data requested in this section for fiscal year 2010. Enter the additional required data on the appropriate lines following the same instructions above (whole dollars, foreign currency, etc). Be sure to complete every line, unless you do not have the line item on your financial statements. For example, if your institution does not have Long Term Debt, you should place a -0- on that line, but put a short explanation in the "Notes" section as to why the line is zero. For example: "Institution has no long term debt."

Note the following additions/changes:

Part 2 is divided into two sections. Section 2A is labeled "Data from IPEDS". This section requires data that can be taken directly from IPEDS, the related IPEDS lines are listed to assist with completing each line.

The Net Asset information has been moved from the original page (now labeled Part 1) where the Educational and General (E&G)

expenses are reported, to the new page labeled "Part 2" under Section 2B.

Section 2B is labeled "Data from Audited Financial Statements and other Institutional Financial Documents". This section requires data which can be taken directly from the institution's audited financial statements or other financial documents.

If your institution does not allocate Depreciation and you answered "no" to the question in Part 1, the Depreciation amount you enter in Part 1 will automatically fill into the Depreciation line in Part 2, Section 2A.

IMPORTANT: Verify that the Key Contacts section includes the name, telephone number and e-mail address of the person completing the Financial Information section.

FREQUENTLY ASKED QUESTIONS

Why does the Commission request financial data on the Institutional Profile?

The Commission uses the financial data in two ways. First, the information is used to assess annual membership dues that are based on an institution's Educational and General (E&G) expenditures as reported on its Institutional Profile. Second, the financial information is used, together with other Institutional Profile information, by staff and evaluators who want a quick "snapshot" of the institution prior to a visit.

Why does the Commission request an audited financial statement?

Commission staff check the accuracy of the Educational and General (E&G) expenditures reported on the Institutional Profile by comparing it to the E&G expenditures reported in the institution's audited statement. Because membership dues are assessed on the basis of an institution's E&G expenditures, the Commission tries to ensure the financial data reported on the Institutional Profile are correct and that a member institution's dues are properly assessed.

You also are required to provide a copy of any "Management Letter" your auditors provided as part of your audited financial statement.

Staff, evaluators, and financial reviewers use the audited financial statement and management letter to review financial information submitted with the institution's self-study or periodic review reports.

Should an institution submit IPEDS financial data for the matching fields on the Institutional Profile?

Yes. Report the same data on the IP that your institution reports to the Integrated Postsecondary Higher Education Data Systems (IPEDS). Line items from the IPEDS survey are provided next to each IP entry for your convenience.

In addition, the IPEDS financial data should cover the same period as the audited financial statement.

What are the most common errors institutions make when completing the Finance section of the Institutional Profile?

Three common errors to avoid in reporting financial information are:

- Reporting tuition discounts or allowances in the IP as Scholarship and Fellowship Expense. (Exclude tuition discounts or allowances from the line item for Scholarship and Fellowship Expense, these discounts are net of revenue.)
- Entering data in thousands of dollars, rather than with the necessary zeros. (Type 1,270,000, not 1,270.)
- Reporting the financial data for the primary institution and for component units.* (Report only for the primary institution.)

**Note:* A component unit is a legally separate organization for which the primary institution is financially accountable or closely related. Examples would include college housing corporations, a student government cooperative, or a university or college foundation.

J. Significant Developments

Please provide the Commission with early notice of any significant developments your institution is considering for academic years 2011-12 or 2012-13, limited to the topics listed below.

Include potential changes that:

- significantly alter the mission, goals, or objectives of the institution;

- alter the legal status, form of control, or ownership;
- establish instruction constituting at least 50% of a degree program in a significantly different format/method of delivery;
- establish instruction at a new degree or credential level;
- replace clock hours with credit hours;
- increase substantially the number of clock or credit hours awarded for successful completion of a program;
- establish instruction constituting at least 50% of a degree program at a new geographic location;
- relocate the primary campus or an existing branch campus (See definition in Section H, above);
- otherwise affect significantly the institution's ability to continue the support of existing and proposed programs.

In addition, please describe any other major developments taking place at the institution. The information provided should focus on important institutional issues (e.g., development of a new strategic plan, initiation of a capital campaign, establishment of a new academic unit such as a school or college, significant shifts in institutional enrollment or finances, etc.) Please DO NOT include matters related to the day-to-day operation of the institution.

The college anticipates a significant expansion of its online programs and courses in global markets, using a non-accredited business partner to help advance this initiative. As a result, a substantive change report will be submitted in 2011-2012. In addition, the college is looking into applying to the State of NJ and to appropriate professional agency groups regarding mission shift in the college's Nursing Program, transitioning from an A.S. degree program to a B.S.N. degree program. These inquiries are preliminary and will require several levels of investigation and approval before a substantive change report will be required.

Instructions

Please provide the Commission with early notice of any substantive changes your institution is considering for academic years 2011-12 or 2012-13, limited to the topics listed below.

[*Note:* Please remember that it is still necessary to submit a formal written request to the Commission, prior to implementation, for approval of pending significant developments that meet the Commission's definition of "substantive changes." These changes are NOT included within the scope of your accreditation until the Commission approves them. For further information, see our policy statement, Substantive Change, available as a Publication on our website at www.msche.org]

If additional clarification is needed, please contact the Commission staff member assigned as liaison to your institution. Your liaison's name appears in the General Information section of the IP.]
