“GREEN JOB” TRAINING AT OCC THIS FALL!

TOMS RIVER – The **Department of Continuing and Professional Education** at **Ocean County College** is offering a variety of courses related to “green job” training. Register today!

It is estimated that over the next decade, New Jersey will see the creation of approximately 20,000 green jobs. To help meet that demand, OCC’s Department of Continuing and Professional Education is offering green technology training for marketable employment opportunities. In addition, courses will be offered for the homeowner and general public to increase their knowledge about this green initiative.

Fall 2010 courses include:

Building Performance Institute Certification: Building Analyst I Training; BPI Envelope Professional Training; BPI Heating Specialist Training; LEED, Green Associate Exam Prep; The Green Mindset – Practical Applications to Greening One’s Home, Introduction to Green Roofs and Walls; The Living Green Roof – Applications & Obstacles; Green Collar Jobs in the Renewable Solar Economy; Grid-Tied Solar Energy Systems; How to Create Your Own Power with the Sun & Wind; Solar Heat Panels; Sunny Boy Residential Inverters 101; Sunny Boy Commercial Inverters 101; Solar Module 101; Photovoltaics 101; Energy Star Bench Marking; Energy Star CFO Calculator & Cost of Delay; Introduction to Energy Auditing for Commercial 101; Solar Hot Water; Basic Overview of Power Purchase Agreements & Financing for Renewable Energy Products; and Solmetric SunEye;

For more information, contact the Ocean County College **Department of Continuing and Professional Education** at **732.255.0404** or visit www.ocean.edu/cpe.htm.
