President’s Report

Dr. Larson said his written report is lengthy and includes information about many wonderful activities and accomplishments at OCC. He acknowledged the many individuals who are actively participating to make this institution the best it can be.

Dr. Larson informed the Board that, in accordance with a recently enacted law and the new College policy adopted last month, a Security Department report will be attached to his report every month for the trustees’ information. The report will be a summary of all crimes, fires, and other emergencies that occurred on campus during the previous month.

Dr. Larson introduced Dr. Steve Kubow, Acting Associate Vice President of Kean Ocean, who reported that the number of Kean Ocean students continues to increase; for the first time, the number of full-time equivalent students exceeds 800. He also noted that Kean University is preparing for its accreditation visit next year.

On behalf of Kean University, Dr. Kubow expressed his appreciation to the trustees for their steady and strong support. In response, Dr. Larson particularly thanked Dr. Kubow for his leadership and resolve in ensuring the success of the Kean Ocean program. Mr. Leone also thanked Dr. Kubow for attending the OCC Board meetings and sharing information with them. The trustees appreciate his presence at the meetings.

Mr. Leone and three trustees attended the joint meeting recently held for members of the OCC Board of Trustees and the OCC Foundation. He and Mrs. Novak commended the efforts of Ms. Heather Barberi in coordinating the meeting, which all attendees found to be energetic, creative, and productive. Although the focus of the College and Foundation strategic plans is different, discussions will continue to identify ways in which one can complement the other.

Following the request by Mr. Thulin for public comments, Dr. David Bordelon, Associate Professor of English and President of the Faculty Association, addressed the Board about the connection between experienced teachers and student achievement; the more experience a teacher has, the more successful the student is. He noted that there has been a significant drop in the number of full-time faculty in the English Department between the early 2000s and 2016, yet the student population has remained relatively the same. During that period, the use of adjunct faculty has increased dramatically. Dr. Bordelon expressed his opinion that, despite the fiscal challenges the College may face, it is very important to retain and full-time faculty in order to ensure the best learning experiences for students.
Mr. Leone responded that the Board considers teaching the most important element of the educational system. However, he noted that Dr. Bordelon did not mention the Lecturer IIs, whose importance to the College and the students cannot be underrated. OCC relies on all teaching personnel, full-time faculty, Lecturer IIs, and adjunct faculty, to provide quality instruction to its students.

With no further comments from the Board members or the public, the meeting adjourned at 1:14 p.m.

Respectfully submitted,

Stephan R. Leone
Secretary
