

SUN 5:58PM

Hey professor! Just wanted to let you know that i just got a big opportunity to continue my horn playing down in Nashville! I have an uncle down there who's been watching our videos of the band and he thinks he can get me jazz and blues gigs down there. I will be working out details for the next month, but I will most likely be going down there sometime after the semester. I will be finishing the semester with the jazz band, so don't worry about me leaving until after all of our performances.

I wanted to thank you for the knowledge and time you spent teaching me and mentoring me. Being a part of the band has been one of the greatest times of my life and I can't thank you and everyone else enough. Hopefully everything goes well and if everything works out and I end up down in Nashville this summer, I will let you and the band know how im doing!

Brandon Cooper
