

POLICY

RECRUITMENT

Primary recruitment for participation in intercollegiate athletic programs sponsored by Ocean County College should be directed to Ocean County residents. The recruitment of out-of county students is permissible, providing the student athlete, high school representative or non-collegiate coach of the athlete makes the initial contact with OCC. Scholarships based on athletic ability will be offered to all recruited student athletes in sports, which are certified by NJCAA as Division I, or Division II level.

Every precaution should be taken to guarantee that prospective student athletes are fully advised of the benefits to be received, if any, as well as the obligations associated with their pending relationship with the college and its athletic program. All recruitment efforts, therefore, should insure that prudent judgment is exercised in behalf of the best interests and needs of the students.

INFORMATION NOTE:

The above policy should be followed in all recruitment endeavors. Questions arising which are not covered by this policy should be referred to the Director of Athletics. This policy conforms to the general recruitment policy of the Garden State Athletic Conference and Region XIX of the National Junior College Athletic Association. (Division I, II, III).
