Application Deadline: Tuesday, September 10, 2019

Information Sessions:

This Study Abroad in Italy Travel Seminar (ARTS 188 and SCIE 129) will bring students to one of the most fascinating places to visit for Art and Architecture. The historical history behind all of the culture is astounding. This trip will lead students through some of the most beautiful and interesting aspects of Italy. The Sistine Chapel, Forum, Colosseum, Pantheon, Vatican Museums, Leonardo da Vinci Museum and the Museum Galileo are just some of the many sites we will visit including a River Cruise on the Tiber River. OCC hasn't offered a trip to Italy in more than fifteen years, and never one in which two totally different disciplines--Science and Art--have been so completely intertwined, as they were in fact during the Renaissance. Moreover, the historic period ranges from 300 BCE to 1700 CE. Students will be able to study science and art history in Italy to include Rome and Florence, which will enhance their experience as global citizens.

- This 12-Day trip includes walking tours and overnight stays
- We will have a guided tour the Roman Forum, the Colosseum, the Pantheon, the Trevi Fountain, Bernini's Fountain of Four Rivers,

the Vatican Museums—the Sistine Chapel and St. Peter’s Basilica, Scavi di Ostia Antica, Borghese Museum and Gallery including Bernini’s Apollo and Daphne, the Sleeping Hermaphrodite statue, paintings by Raphael, Titian, Caravaggio, and more.

- **Assisi:** Basilica of San Francesco, the Basilica of Santa Clara, Eremo delle Carceri
 - **Orvieto:** a hill town that sits on a big chunk of tufo volcanic stone over-looking the Umbrian plains
 - **Sienna:** Gothic architecture and a Unesco World Heritage Site
 - **Florence:** Leonardo da Vinci Museum, Museum Galileo, Piazza del Duomo, Brunelleschi’s dome, Piazza della Signoria, Palazzo Vecchio, Ponte Vecchio, the Cathedral and Baptistry of Florence as well as other magnificent churches and world-renowned museums.
- Students can participate in (ARTS 188: World Art or SCIE 129: Global Science) one or both courses, while earning three or six college credits
 - Members of the community are welcome to participate on an audit basis.
