## Executive Summary

Ocean County College's Environmental Scan is one of many data sources that is utilized by the Institutional Research and Planning division as well as the campus community to inform strategic planning and continuous improvement. The goal of this scan is to offer a detailed look at the many trends and projections of Ocean County College's population and communities that may have an influence on advancing the college's overall mission. The College utilizes this data in order to distinguish important trends and better understand external influences that impact the institution. This can lead to new curricular opportunities and potential challenges to be considered in the planning process.

The Environmental Scan offers the institution comprehensive projections in order to inform future decision making in a wide variety of areas. By compiling past, present, and forecasted data from Ocean County and its neighboring regions, Ocean County College may effectively strengthen its future and successfully advance its strategies and overall mission. Areas reviewed within this Scan include:

- Demographics and Population;
- Labor Markets;
- Income Statistics and Educational Attainment.
