Form 2 – Revision History

Revision Date	Form # Changed	Reason for Revision (Updates to staff, policy, webpage, etc.)

Form 3 – Public Announcements *Part IV.B. and C.*

1.	Provide the link to the dedicated stormwater webpage for your Public Complex.
2.	List the name and title of person(s) responsible for stormwater webpage postings/updates.
3.	Only for colleges, universities, and military bases with dependents living on base: List the newspapers, social media outlets, websites, direct mailings (Email or postal), and other communication approaches typically used to inform/educate the public on stormwater program information and related events/activities.

Form 4 – Post-Construction Stormwater Management in New Development and Redevelopment

Part IV.E.

C. 7:8.
ls for the
projects

Form 5 – Regulatory Mechanisms *Part IV.F.1.*

Regulatory Mechanism	Date Adopted	Was the DEP model adopted without change? If not, explain how the Public Complex's Regulatory Mechanism is more stringent.	Entity Responsible for Enforcement	Fees & Fines
Pet Waste Control				
Collifor				
2. Wildlife				
Feeding Control				
3. Litter Control				
4. Improper				
Disposal of Waste				
5. Yard Waste				
List any additional stor	rmwater-rel	ated regulations the permittee has ac	lopted that addres	S
		4 permit, if applicable. Include ado		
responsible for enforce	ement, and r	related fees and fines.		
		sociated with regulations and related	violations and	
enforcement actions be	elow.			

Form 6 – Monthly Street Sweeping *Part IV.F.2.c.*

1. Provide a written description and/or attach a map outlining all paved parking lots and streets on your property that have storm drain inlets that direct stormwater runoff into an MS4 or discharge directly to surface water.
Note: Only asphalt and concrete roads need to be swept. Roads that do not have storm drain inlets and do not discharge to surface water do <u>not</u> need to be swept.
2. Indicate if sweeping work is outsourced and if so, describe the arrangement.

Form 7 – MS4 Infrastructure

Part IV.F.2.d-f. and Part IV.F.3.

	1. Storm Drain Inlets
a.	Describe how inlets owned or operated by the permittee that do not have a permanent
	wording cast into the design have been properly labelled.
b.	
0.	retrofitted.
c.	
С.	catch basins or other BMPs to collect solids.
4	Describe when and how you conduct inspections of storm drain inlets and the criteria used
a.	▼
	to determine when they need to be cleaned.
	2. Catch Basins
a.	Describe when and how you conduct inspections of catch basins.
b.	Describe the criteria used to determine when catch basins need to be cleaned. Include a
	description of the equipment and techniques used.
	•
1	

a.	Describe when and how inspections of MS4 conveyance systems are conducted.
b.	Describe the criteria used to determine when they need to be cleaned. Include a description of the equipment and techniques used.
	description of the equipment and techniques used.
	4. Outfall Inspections
a.	Structural Integrity – Describe the program in place to check the overall condition of
	stormwater outfalls. Include a description of the equipment and techniques used.
b.	Stream Scouring – Describe the program in place to detect, investigate, and control localized stream scouring from stormwater outfalls. Include a description of the
	equipment and techniques used.
c.	Illicit Discharge Detection and Elimination – Describe the program in place for conducting
	visual dry weather inspections of Public Complex owned or operated outfalls. Include a
	description of the equipment and techniques used. Record cases of illicit discharges using the DEP's Illicit Connection Inspection Report Form from the Department's main
	stormwater webpage.

5. Other Infrastructure List the types of MS4 infrastructure on the Public Complex property that requires inspection but are not noted above in items 1-4. Describe when and how you conduct inspections of this infrastructure and the criteria used to determine when they need to be maintained and/or cleaned.
6. Infrastructure Records Indicate the location of records related to stormwater infrastructure inspection, cleaning,
maintenance, and repair activities.

Form 8 – Good Housekeeping

Part IV.F.2.g-l.

Describe your program for preventing herbicides from being washed into the waters of the State and to prevent erosion caused by de-vegetation. 2. Excess De-icing Material Management Describe your program for ensuring that excess piles of salt and de-icing/anti-icing materials are removed in a timely manner after storm events. 3. Vegetative Waste Management Describe your program for ensuring proper pickup, handling, storage, and disposal of wood waste and yard trimmings generated at the Public Complex, such as trimming trees, mowing, etc. 4. Tree Replacement Management Describe your program for ensuring the proper removal and replacement of trees at your Public Complex.	2. Excess De-icing Material Management Describe your program for ensuring that excess piles of salt and de-icing/anti-icing materials are removed in a timely manner after storm events. 3. Vegetative Waste Management Describe your program for ensuring proper pickup, handling, storage, and disposal of wood waste and yard trimmings generated at the Public Complex, such as trimming trees, mowing, etc. 4. your Public Complex.	your Public Complex.		Describe your program for ensuring the proper removal and replacement of trees at
			your Public Complex.

5.	Roadside Erosion Control
	Describe your program to detect and repair erosion along Public Complex owned
	driveways, streets, and parking areas.
6.	Outdoor Refuse Containers and Dumpsters
	Describe your program to ensure that outdoor dumpsters and refuse containers on
	Public Complex property are covered and not discharging pollutants to stormwater or
	surface water.

Form 9 – Best Management Practices at Maintenance Yards & Other Ancillary Operations

Part IV.F.4.

Please complete a separate Form 9 for each yard or site. Indicate the number of yards/sites the Public Complex owns or operates: _____

1. Site Name and Address	
2. Monthly Site Inspections	
	l at this site and the location of inspection logs.
•	
3. Inventory List	
List all materials and machinery that are pot	entially exposed to stormwater
Materials	Machinery/Equipment
Waterlais	Wiachiner y/Equipment

4.	Discharge of Stormwater from Secondary Containment Describe the process in place for discharging stormwater from secondary containment areas where outdoor containers are stored.
E	Evoling Onevations
3.	Fueling Operations Does fueling occur on site? If so, describe the BMPs in place to minimize contamination of stormwater from fueling activities. If not, explain where fueling takes place.
6.	Vehicle/Equipment Maintenance and Repair Do you perform maintenance and repair on site? Is this conducted indoors or outdoors? If outdoors, describe the BMPs in place to minimize contamination of stormwater from maintenance and repair activities.

7.	Wash Wastewater Containment
	Do you wash vehicles on site? If so, describe the BMPs in place to minimize contamination
	of stormwater from these activities. Note that on site containment structures require annual
	inspections by a NJ licensed professional engineer. If not, explain where vehicle washing
	takes place.
	unco piuce.
8.	Salt and Other Granular De-icing/Anti-icing Materials
	Do you store salt and other granular de-icing/anti-icing materials on site? If so, describe
	how they are stored and the BMPs in place to minimize contamination of stormwater from
	these materials. If not, explain where these materials are stored.
0	
9.	Aggregate Material, Wood Chips, and Finished Leaf Compost
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in
у.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
9.	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where
	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored.
	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored. Cold Patch Asphalt
	Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored. Cold Patch Asphalt Do you store these materials on site? If so, describe how they are stored and the BMPs in

If not, explain where these materials are stored. Cold Patch Asphalt Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where

11. Street Sweepings and Storm Sewer Clean-out Materials Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored.
12. Construction and Demolition Waste, Wood Waste, and Yard Trimmings Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored.
13. Scrap Tires Do you store these materials on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater from these materials. If not, explain where these materials are stored.
14 In an anable Webieles and Foreignment
14. Inoperable Vehicles and Equipment Do you store inoperable vehicles or equipment on site? If so, describe how they are stored and the BMPs in place to minimize contamination of stormwater. If not, explain where they are stored.

Form 10 – Training *Part IV.F.5-8.*

Stormwater Program Coordinators
Describe the training provided for the Stormwater Program Coordinator.

Topic	Public Complex Employees
	Examples: in-person or virtual group sessions, e-Learning, field trainings, and videos
	Describe the training provided for staff.
SPPP	
Construction Site Stormwater Runoff	
Post-Construction Stormwater Management in New and Redevelopment Regulatory Mechanisms	
Good Housekeeping	
Stormwater Facilities Maintenance	
Maintenance Yards and Other Ancillary Operations	

MS4 Mapping		
Outfall Stream Scouring		
Illicit Discharge Detection and Elimination		
Watershed Improvement Plan		
	Stormwater Management Design Poviewers	
Stormwater Management Design Reviewers Describe the training provided for individuals responsible for reviews and approvals of stormwater management designs and any amendments to N.J.A.C. 7:8 if applicable.		
Training Records Indicate the location of training records for the above required training.		
indicate the location	n of training fecords for the above required training.	

Form 11 – MS4 Mapping *Part IV.G.1*.

Provide a link to the most current MS4 outfall/infrastructure map.	
2. Indicate the total of each type of MS4 infrastructure listed below (due 0	1 Jan 2026).
a. MS4 outfalls	
b. MS4 ground water discharge points (basins or overland flow infiltration areas)	
c. MS4 interconnections	
d. MS4 storm drain inlets	
e. MS4 manholes	
f. Length of conveyance (channels, pipes, ditches, etc.)	
g. MS4 pump stations	
h. MS4 stormwater facilities (any that are not listed above)	
i. Maintenance yard(s) and other ancillary operations	
3. Describe how the Public Complex's outfall/infrastructure map is review	
to reflect any new or newly identified MS4 infrastructure (e.g., an outfai	ll is closed, a
new basin is constructed, ownership of an outfall has changed, etc.).	
4. Describe how the Public Complex will create and update its MS4 Infras	structure Map.

Form 12 – Watershed Improvement Plan *Part IV.H.*

1.	Describe how your Public Complex is developing or helping to develop a Watershed Improvement Plan.
2.	Describe any regional projects or collaboration efforts with municipalities.
3.	Indicate the location of records related to all public information sessions and meetings for discussions of the Watershed Improvement Plan.
