

STUDENT SUCCESS SKILL SHEET

How to Manage Accelerated Semesters

Accelerated terms can be **5, 7.5, or 10 weeks** in length (a standard semester is 15 weeks). This means that you're doing all the work of a normal semester in a shortened period of time!

Start your coursework right away.

Many of our accelerated classes are held online. Make sure that you **login on the first day** and get started with your work!

Allow plenty of time for your assignments.

Since these courses move quickly, there are more assignments on a weekly basis. You should aim to dedicate about **12-15 hours per week** (for a 3 credit class) to homework/studying.

Be organized.

Create to-do lists, use a planner, and visit the Student Success Team if you need help managing your time!
